At Bluebird Cargo, we offer a full range of services that are designed to help our customers meet all their removal, packing, transport, and taxi service needs. We offer the highest levels of customer service, and always endeavor to ensure that your move goes exactly as you imagined. You could settle for less than the best, but why do that when you can contact us and have the peace of mind that comes from knowing that your possessions are in professional hands? Call us today to find out more about any of these great services: **Removals** When you're getting ready to move, you want to hire a moving company that has the expertise and experience you need to ensure that everything gets to its destination intact. While we like to toss around phrases like "man with a van" the fact is that we are much more than that. We provide a full range of removal services that encompass every aspect of the moving process. From packing and dismantling of furniture to transport and cleaning services, Bluebird Cargo takes care of even the smallest detail. Our fully-equipped vans, highly-trained professional moving personnel, and reliance on state of the art technology all help to ensure that your moving experience is exactly what you need. The next time you're in the market for help with your move, give us a call to find out how Bluebird can take the worry out of your removal process. **Packing** Our packing services are designed to ensure that you are spared all of the messy details that usually come along with the moving process. We take care of everything from providing the cardboard boxes and packing tape you need to bubble wrap and other protective products that safeguard all your precious belongings from harm during the move. The next time you consider moving, free yourself from the extra work that packing necessitates. Instead, rely on the packing experts to do the job right. Our packing services are designed to protect all of your important belongings, with boxes, wardrobe protection, and mattress security that will ensure that everything of value is kept safe

from harm. Give us a call to find out more about how we can help to provide you with the packing peace of mind you deserve. **Dismantling** One of the most frustrating parts of the removal process is dismantling furniture. The fact is that none of the largest pieces of furniture can be moved in one piece. Many of them need to be taken apart for easier and safer transport. The next time you think that you might not have the time to have your furniture transported, our professionals will take care of your dismantling needs, safely taking furniture apart so that it can be moved the professional way. Unlike other companies that simply rush to get everything loaded and moved as quickly as they can, our professional moving teams take the time to ensure that everything is done right the first time. **End of Tenancy Cleaning** There's more to ending a tenancy than just packing everything up and moving on to your next destination. Most tenant agreements also have provisions designed to ensure that you leave the premises in as good a shape as you found them. That, of course, means that your flat will need to be cleaned, and not just light dusting, either! Our cleaning services
