Most hair care products sold in stores for AFRO HAIR TEXTURE are full of artificial and harsh chemicals and it is a lot of harsh chemicals to absorb through the skin of your scalp on a daily basis.

It is the same for relaxers as they rely on the use of strong chemicals to flatten the naturally curly hair. After their natural hair is straightened, most women will continue to apply more styling products full of chemicals to their hair every day to keep their hair shiny, sleek and smooth. Switching from our KYKYVILLE NATURAL, ORGANIC AND RAW, Shea butter, BEESWAX and Olive oil mix is a good way to cut out a lot of chemicals from your daily care routine. Many people will recommend Murray's Beeswax natural hair products. However, many customers have complained that the primary ingredient in Murray's Beeswax hair products is not beeswax but actually petrolatum, an artificial petroleum based substance often used as CHEAP ALTERNATIVE FOR BEESWAX. When you get past the good marketing, Murray's Beeswax Hair Products aren't that natural or good for you. However, our beeswax and Shea butter mix is made out of the 3 ingredients listed previously, containing no artificial ingredients or scents. Using this product is a nice way to give your hair and scalp pure natural Vitamin D, E, A and F. In addition KYKYVILLE allows you to choose between an unscented fragrance free and an organic lavender.
