No matter how small your front garden, with careful planning you can make it both beautiful and useful. Why not add a bit of panache and style to the appearance of your property and turn a garden into a stylish driveway, relay the existing one or design a spectacular new one? A driveway that stands out from the rest, adds value to your property and is guaranteed for 5 years. Once we have the size and shape of your outdoor space and know what you're looking to spend, we design and implement that functional and fabulous driveway you've been dreaming of. With 20 years experience in both landscaping and driveways we can offer you a practical, affordable and beautiful solution. Using landscape lighting can transform the mood of a driveway and flowers or foliage can bring a vibrant sense of colour to your unique design. Planting small trees, a flower border or a decorative rock garden can create an interesting and inviting drive leading up to your home. Adding a curve or two, raised flower planters or steps can add another focal point and look amazing. A stunning patio can create an outdoor space that acts as an extension to your home. What ever the style of your property we offer designs to suit both modern or traditional. Curved walls, raised planters, decking and sleeper walls are just some of the ideas that can be incorporated into your design. We offer a free no obligation quote and if you choose to go ahead we provide a full site survey to look at drainage and any other specifics. Once we know what you're looking for we will guide you through the process, help you choose the right design, materials, edging and effects for your project. So let us create a bespoke design to transform your garden into the garden of your dreams.
