Fully functional DJI Phantom 2 Vision with Rotorpixel 2-Axis brushless gimbal (400 G

Location Wales, Powys https://www.freeadsz.co.uk/x-490804-z

1 owner from new!

Bought new in Jan 2014 from Quadcopters.

Fitted with a Rotorpixel 2-Axis brushless gimbal. - www.rotorpixel.com (cost over \$300.00) - which made a great difference to the quality of the video footage.

The foam on the landing gear compensates for the slight difference in the depth of the camera when mounted on the Rotorpixel gimbal. (also makes for a softer landing....)

Still flies as good as the day it was bought.

There is a crack on one of the motor mounts which has been repaired, (see the photo), this was done shortly after my first flight - overconfidence ground flying through trees - and has not given any problems or affected the flight.

It comes with 2 sets of spare props and 3 batteries, (1 almost new and the other 2 getting on a bit.

I'm happy for cash on collection or I'll ship it for £20.00 (to the UK only) in the original box and packing. Highlands and Islands will cost more, contact me for a price
