Does anyone happen to have lurking in their garage or shed any twisted drill bits or augers that they no longer need? It does not matter what size, condition or how rusty they are as they are going to be used in a sculpture project. Castors, cogs, keys of any kind and size, nuts and bolts, springs, chains, galvanised staples also needed. Thank you. I'm sure you have some lying around in your garage that you no longer need! Much appreciated. Thank.
