Very hard to find this Rocktile steel string Silent guitar, this style no longer available. Makes very little sound but plug in your headphones and away you Rock. Electronics use long lasting 9v battery. Amp out jack is in the strap end pin. Volume and tone knobs on left side. Body and neck is one piece solid Maple and the fretboard is Rosewood. The frame is solid wood with highly lacquered wood grain. Very unusual and attractive guitar. Great sounding and easy to play. I'm giving it with a nylon gig bag and a 10 watt practice amp and.
