Reading is an important aspect in a child's progression at high school and a certain level of reading needs to be obtained for a child to freely access the National Curriculum. There are 100s of subject based tutors out there but none really focus on the importance of reading and literacy when it comes to education. Children can read words but do they understand what they have read? Does your child have difficulty interpreting or decoding words? Would you like your child to excel in school? A bit about myself.... I currently work as a literacy teacher in a high school in Manchester. My job is to assess student reading ages and set up interventions for those that are left behind or have a lower level of reading compared to the rest of the year. So far this has been extremely successful and outcomes have been very beneficial for the student and the school. What I offer.... Catch up literacy classes/private tuition your child/children SPAG (spelling, punctuation and grammar) classes/private tuition your child/children Guaranteed results CRB checked (update service) Qualified Teacher Flexible All resources included Regular testing and assessment to show progression. Interested? I can be contacted on.... 07923357788 079233577...(click to reveal full phone number) for informal chat or discussion click to contact ;
