The Original Abbey Driveways is a family run company with over 30 years expertise as a block paving and Tar Macadam specialist company. We are unrivalled when it comes to the versatility for providing the optimum surfacing solution across a broad spectrum of domestic and commercial construction applications. Whether you require premium aesthetics to frame the finest contemporary or traditional architecture, or a robust, technically engineered surface for heavy loading applications, Abbey Driveways range of block paving and Tar macadam will provide the ideal solution for your project. We only use the best products on all jobs and our staff are trained to the highest standards. We allow rainwater to soak into the ground at source, where it replenishes the water table, this ensure's an ideal sustainable drainage (SuDS) solution. This improves water quality, helps to mitigate the risk of any potential flooding and creates a healthier natural.
