Solar panels for Caravan Motorhome 100W (100 GBP)

Location **West Midlands, Shropshire** https://www.freeadsz.co.uk/x-492115-z

I am selling my portable folding Solar panels that i used just 3 times to charge two batteries in my Caravan. I now have a motorhome with solar panels on roof so no longer needed. These are two panels hinged together so they can be folded away . they are 50W each giving a total of 100W. Also included is the Controller for one or two batteries and a remote meter (B.N.I.B never used) allowing you to monitor the charge and battery power at any time. there are 4×4 meter cables which means you can have the panels up to 8 meters away from caravan battery box if required. I have the original packaging for all items. These would need to be collected due to delicate nature of solar cells. ;
