Get to know your computer better - Computer training in the comfort of your own hon

South East, West Sussex Location https://www.freeadsz.co.uk/x-492886-z

Perplexed by your PC? Mad with your Mac? Or... "I wish I knew how to..." Help is at hand! The team at Qryztal Technologies are here to make your world of computing as clear as it can be. We have a trainer who has nearly 25 years experience of helping people get to grips with Windows and Microsoft Office, and an engineer who doesn't just know how to fix things - he can explain them too. We've worked with public and private sector organisations, as well as charities, voluntary sector groups, and individuals - to enable people to become confident (and safe) when using computers, laptops and tablets. Tell us what you need to know, or what you're stuck on - and we'll come and help you solve your problem... and teach you how to stop it being a problem in the future. We charge from £39 per half hour per person. Discounts are available if you have friends or relatives who want to learn alongside you - get in touch with us and see what deals we can offer you. Don't delay - get in touch with Andrew and Arthur.
