Daniele Calimera is a certified teacher for the Institute for Vocal Advancement and he is an expert of the MIX method (this method is used by the most iconic pop star like Stevie Wonder, Michael Jackson, Beyonce, Imagine Dragons, Michael Bolton, Whitney Houston ecc..).

I teach from beginners to professional singers.

This method will bring you more control over your instrument, increase your range, singing with a balanced and healthy voice whatever is your genre (from rock to pop, from musical theater to soul, from opera to blues).

During the lesson we will work on the singing tendencies of the students and give them focus exercises to improve their skills. We also applied the method to the songs the students want to prepare.

Every lesson is recorded and released to the students at the end of it so they will be encouraged to practice at home.

Look forward to work with you.
