Auto-Trail's flagship Frontier range has been at the vanguard of British motorhome design for more than 20 years. Everything we've learned about motorhome production over more than a quarter of a century is evident in this comprehensive range of luxury leisure vehicles. Built on the market-leading Fiat Ducato platform and instantly recognisable as an Auto-Trail thanks to distinctive paintwork and styling, few modern motorhomes have the presence of the Frontier range. With a raft of improvements introduced to the 2017 line-up, the latest Frontier collection pushes the boundaries of luxury motorhome touring to new heights. All models are now built on the Al-Ko wide-track chassis and feature a stylish new back panel. No compromises have been made in the manufacture of the Frontier range, which is precision-engineered to withstand the rigors of long distance touring over extended periods in five-star comfort.

**FLEXIBLE SLEEPING ARRANGEMENTS** The defining feature of the new Frontier Delaware "S" is an almost entirely separate rear bedroom with a choice of 6ft 1in long twin fixed single beds or a "king-sized" double. The epitome of luxury, this high-end motorhome has all there is to offer when it comes to a home from home experience.

**NEW FOR 2017** When twinned with a new larger kitchen – featuring Dometic's practical new fridge freezer with storage drawers – and a cavernous washroom, the Delaware "S" adds up to a comprehensively equipped long-range cruiser.

**EASY HOLD AND EASY START** The Hill-Holder system is invaluable for hill starts, extending the braking pressure when the brake pedal is released to prevent the vehicle from slipping backwards, making the manoeuvre much easier.

**DRIVE LIKE A LOCAL** The integrated TomTom satellite system will ensure you arrive safely and good time. This DAB radio and CD player features a 5" colour touch screen, western European navigation maps, Bluetooth connectivity, USB port and reversing camera - all in
