**PATIO CLEANING** Patios often get dirty over a period of time with lichens, grease and other types of dirt and plant life that will age the appearance of the stone. By jet cleaning these surfaces with water we can take years off the way a patio or your decking looks. This keeps your outside areas looking and feeling new. Using high pressure water jetting equipment and rotary power brushing equipment where appropriate we are able to restore block paving, tarmac, natural stone, brick, concrete and almost any other hard surface to near original condition. There is also a safety aspect to having your patio cleaned. Algae and dirt build up can create slippery and hazardous surfaces that may cause a fall. If you are thinking of selling your property then an investment in getting your patio cleaned can actually help with giving your outdoor areas a face lift. **GARDENING SERVICES** Mowing Strimming Hedge Cutting Maintenance Areas Shingled / Barked Small Tree Surgery Weed Killing
