your hand and enjoy on your own, to a shared device that lets you enjoy your music with your friends and family.

MOVIES

With cinema movies available for purchase or rental through Apple iTunes, your iGAME can bring the silver screen to your own TV screen and let you watch the latest Hollywood blockbusters like never before. With access to thousands of films to download, the days of popping out to the video store are long gone. You'll have the best seat in the house-right in front of your iGAME FAMILY! You can also watch music videos, video podcasts and movies you've recorded yourself on your iPods video camera on your TV. Make the most of your downloads, rather than watching them on the tiny iPod screen you can watch them bigger and better on your TV and then with the flexibility of picking up the device and continue watching the films, podcast's or News in the car, on the train.....

GAMES

iGAME FAMILY is the next generation in immersive gaming. The iGAME uses 2.4GHz wireless technology to convert real life movements of the iGAME controller into the actions of the virtual iGAME characters on-screen. iGAME FAMILY leaves behind traditional games consoles where square eyed teenagers are glued to the couch for hours on end. The iGAME FAMILY has been designed to be more healthy and active-where iGAMERS are up and moving about, interacting with the screen as well as each other. iGAME FAMILY has also been designed as a platform for games that are suitable to stimulate and engage the brain for both adults and.
