Be Franchising is a leading provider of franchising support, guidance and consultancy services in the UK and International franchise sector. For businesses looking to expand, franchising offers a quick, safe and reliable format, allowing entrepreneurs the opportunity to develop their brand and create a model which is easier to manage and fund.

Be Franchising will assess the concept, strategically advise on the business structure, start up costs and ongoing fees for franchisees, as part of a detailed feasibility study, to ensure the business model is viable and profitable. Our services include the creation of all of the required documentation to make your business professional, effective and efficient, including the franchise prospectus, agreement(s) and operations manual.

Be Franchising can also help you with your franchise recruitment; advising, supporting and even finding your franchisees for you - a service we perform for multiple brands. We can even provide field support to help you manage your network of franchisees until you feel comfortable doing it yourself! After all, we are franchisors ourselves. Be Franchising operates to British Franchise Association standards and our MD is an ex board member of this.
