Astro turf is artificial grass that looks realistic and even feels natural but with added benefits of being hard wearing and low maintenance including no lawn mowing! It can transform a garden or outside area into an all year round play area for children which can include shock pad underlays under climbing frames, trampolines and swings. If you have pets gone are dirty paws entering the house. Pet mess is easy to clean up too and a gentle wash to remove any surplus dirt keeps your artificial grass in tip-top condition. Today's artificial grass comes in various types to suit your needs and budget. We install astro turf throughout Devon, Cornwall, Somerset and Dorset.
