I am happy to what's app or email more images!) I am selling my ww2 captains boat because I am now not well enough to finish her. I had cancer 3 years ago of the bowel and it's looking the same way and a major op needed. So I am needing the boat gone ASAP to be able to have the time off work etc. It is a real shame as she is a lovely boat. She is 80% finished and some materials will come with her that I have ready bought. She is 29ft in length she also has an original thorny Croft engine with original plaques of authenticity. She has had new sea Cocks and anti foul last year. She has a seating area to the rear of the boat next to the ship wheel and engine block. A small seating area opposite the kitChen which can be made into a single or double bunk. A fully working sea toilet/shower cubical, shower is not fitted. sink and a king size bed at the from with storage. She runs really well she did a trip from kent to rotterdam easy no problems. fully working very reliable and sterdy boat. Comes with the remaining paint used on her etc any questions please ask. Pictures are avaiable and viewings are welcome. Also mooring could be chatted about..
