I am offering a bespoke spreadsheet creation service that is tailor-made to meet your individual personal or business needs. Using a wide range of Microsoft Excel knowledge and skills, combined with 10 years of experience in providing spreadsheet solutions, I can create a spreadsheet for you to use in a wide range of applications. Services offered include: New bespoke spreadsheet creation based on information or data supplied by you Edit, repair and enhancement of existing spreadsheets emailed to me by you The use of formulas, wherever possible, makes spreadsheet maintenance easy and does much of the work for you The use of Visual Basic Application (VBA) code "macros", can automate many of your day-to-day spreadsheet tasks at the touch of a button, or be triggered by events such as spreadsheet open, update or close Full customisation, for example, a membership list could have members details added or removed, a costs sheet could show a VAT % change, or a calendar spreadsheet created for 2017 could be re-used in 2018, the possibilities are endless Data analysis using grid tables, pivot tables or charts provides an easy, colourful and visual look and feel to any spreadsheet, with key information highlighted Conditional formatting, shows, for example, highs/lows, debts or profit/loss data which reacts to data changes elsewhere in the spreadsheet, ideal for 'what-if' questions The buying process: Send email to "click to contact" with a brief outline of your requirements I will quickly respond with acceptance of task and request any further information or test data Within further 48 hours I will email a basic prototype solution for review, with proposed price and delivery details At this point the buying process has cost you nothing Only when price and delivery are agreed, and you confirm that you are happy to proceed, will payment be requested I will create the full spreadsheet solution and email this to you, within the agreed time-scale, for your final review Any further amendments to the spreadsheet can then be discussed I am happy to help with after sales service for a short
