Floor Plans and Marketing Photographs are now considered an essential part of any properties particulars. They provide the client and staff with a visual layout of the property without having to make a visit. Previously, agents and landlords alike have only provided photographs to potential buyers/tenants but Floor Plans are fast becoming a minimum requirement when marketing a property. We pride ourselves in providing high quality and accurate floor plans. We are happy to discuss our fees with interested parties, they are competitive for the excellent quality of work and speed of turnaround and are based upon the size of the property and the distance we have to travel to measure it. Floor Plans and Marketing Photographs are now considered an essential part of any properties particulars. All floorplans drawn to guidelines set out by the Royal Institute of Chartered Surveyors.

Floor plans are an invaluable marketing tool for estate agents keen to sell more property, for sellers to show off the layout and orientation of their home to best advantage and for buyers as an aide mémoire after viewings. Floor plans are no longer thought of as a luxury - they are an integral component for brochures, websites, window displays and all digital platforms. A sale or let property with a floorplan is more likely to attract the right buyer at an early.
