So what is the Revolutionary Simply Music Method? Simply Music is a breakthrough! It is a method which has broken down learning into bite sized pieces and single thought process. Meaning, you don't need to be thinking about more than one thing at a time and each bite-sized piece that you learn is meshed together with other bite-size pieces that become entire songs. This is how we learn to speak! We learn sounds, words and then develop sentences. After about 4 years of conversing with our loved ones, we will start looking at books to see how these words we speak have a written component to them. Traditional piano methods do NOT work like this. They teach you to decode the written symbols of music as a means to be able to play. Its the typical Cart Before The Horse Issue. This is why there is such a large drop-out statistic with reading based approaches to music. "I'M NOT SAYING THAT READING MUSIC IS OBSOLETE. THE COMPLETE OPPOSITE ACTUALLY." All I'm saying is: Let's 'speak' the language before we read the text Let's make it easier to learn for faster, deeper and higher quality results Let's not get the cart to pull the horse YOU MAY BE THINKING AT THIS POINT - IS THIS METHOD FOR ME? This method is for you if you: - are between the ages of 5 and 105 are a beginner are an expert who is stuck only being able to 'read and not speak' haven't got a musical bone in your body have oodles of talent want to save a lot of money learning are a parent who wants to give their child the best music learning experience money can buy Basically - If you want music to be a part of you life forever, Simply Music is for!
