

A Home to Grow Childminders

Location **London, London**
<https://www.freeadsz.co.uk/x-498993-z>

Welcome to our page and we hope you like what you read, My name is Lydia and I offer an Ofsted registered childminder service from my lovely home in Queen's Park, London W10. I am joined each day by my two lovely assistants who I adore and the children do too. Together, we are 'A Home to Grow' and have been a setting for 6 years. Each day children get to experience creative play amongst our many toys and enjoy group learning active to teach life skills, academics or about the world. We email you a log each day to show what the children have been doing and email photos each week. Children become very excited to see what we do each day! I am a fully registered OFSTED childminder and have been individually awarded the highest rating OUTSTANDING. I have recent First Aid, Food Hygiene and Child Protection training. I have many years experience of working in schools, nurseries and various children's charities and absolutely love working with children of all ages and believe we offer an environment that reflects this, full of fun, active and educational activities. I am a level 4 higher level teaching assistant with a level 3 distinction in Child Development and Education. We do many educational adult-led activities and child led free-play on a daily basis which develops areas of learning in literacy, communication, physical exercise, crawling and walking, pen control, numeracy, art and design, knowledge of the World, personal, social and emotional development. My cosy Victorian home is adapted to contain a learning nursery room, lounge for rest, dining area and a safe back garden. We have lots of resources for all age groups including a fully stocked nursery room, play house, activity sheets, toys, games and baby equipment. I have two lovely, well-mannered daughters aged seventeen and fourteen years old and a very sweet miniature dog. My daughters are wonderful, sweet girls who play with the children when they are

available. Lauryn is training to be a doctor, achieved 12 A's on her GCSE's and has completed work experience at a children's hospital. This means to be a doctor already has a distinction in her level 3 health care diploma and more academic being a doctor, also has a first class honours in a law degree and a degree in business. She is DEFT and has a very good sense of humour. We accept childcare employee reward vouchers or 15 hour free education grants. Please feel free to check out our website <http://www.ahometogrow.com> We are very excited for you to come and visit us!!
