i have a lovely aquarium with a very good external filter. the tank measures 600 wide 400 high 300 deep. it has a lovely bright light and a blue one for night viewing. It has one of the best external filters on the market, i love this filter, i have the bigger one on my other tank. it's a fluval 106 with many chambers of cleaning products, it's excellent at keeping your water sparkly clean. inside the chambers there are charcoal, sponges and stones. there is a heater, air bubble filter plus many more items.;
