

Parking Sensors supplied and fitted

Location

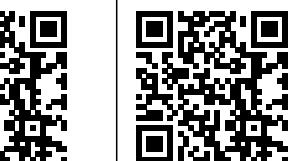

Wales, South Glamorgan<https://www.freeadsz.co.uk/x-499111-z>

will supply and fit a suitable set of parking/reversing sensors to your vehicle. These are designed to assist you when you most need a little help from a friend (when reversing in awkward places) As a safety feature it is high on the list as they detect any obstacle whether human or otherwise,no need to struggle they will help you hence the reason they are now fitted to most cars. I can supply you with 2 types of systems the buzzer only or monitor type the choice is yours and the cost is the same. I am a retired engineer and have been doing these for years to everyone's satisfaction, and you are more than welcome to see for yourself, as there are quite a few of my neighbours and friends that will happily show you my workmanship. My costs are at least half of that charged by the traders as I am more interested in helping fellow motorists than making a large profit. I guarantee my workmanship for the life of the car, and you will also get a 3 year guarantee on the sensor kit. Please feel free to contact me at anytime in anyway you prefer. NB: If you prefer to supply the sensor kit yourself I will happily reduce the cost to reflect.
