Hello Here is the iPhone 4s and it is in excellent condition, from what where I can see that there are no scratches as it has been used with silicone case and screen protector. Sorry no headphones due to hygiene reasons as you can get these from eBay at a cheaper cost. There is a small chip on the bottom of the phone as you can see the photo. The on and off on top of the phone is working fine. It comes with the following items:

Used white iPhone 4s

Original box

Sim key removal

USB Cable

Genuine Apple USB wall plug in charger

Silicone case

8 remaining screen protectors I can post it via Hermes tracked with an additional fee of £3.20 within UK only. Any questions, please do not hesitate to ask;
