The Academy is one of the largest and most successful independent contemporary music schools in the UK. We teach children and adults of all ages and abilities a wide selection of music tuition. Whatever your ability, beginner or advanced, there is a place for you within our Music School. We are a contemporary school that focuses on Rock and Pop for guitar, bass, drums, harmonica and vocals. Our fully equipped music studios are for anyone aged 5 or above. We put the emphasis on fun, allowing each pupil to master their chosen instrument. All pupils are encouraged to take exams and/or take part in our many live performance events that take place throughout the tuition.
