Absolutely gorgeous shar pei puppies ready very soon for their forever homes. Come and meet both Mum & Dad and their wrinkly babies in our family home. Mum & Dad are KC Registered though after having several enquiries asking if we would consider selling our babies for less if not registered, we have decided to do so. The consensus was that pups were being purchased as a family pet, not to be shown or breed from and owners would rather save money than have paperwork sitting in a drawer. Please note, parents paperwork is here to be viewed. Pups have had several vet visits to a shar pei specialist who has tacked their eyes, microchipped them and carried out their worming and flea treatment. Puppies come with their health certificates, vet folder and puppy.
