Hi for sale is my Nabertherm Glass Kiln which I bought when I started university only reason for selling is I need a deeper one for pot melts and casting. It was second hand when I purchased it and I have only used it a handful of times with good results. It is in very good condition. It comes with 2 shelves and the props and the controller is a P300

the approx dimensions are  
Internal  
Length 37"  
Width 23.5"  
Height 9"

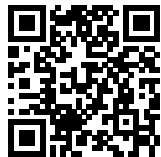

External  
Length 42"  
Width including power box at back 33"  
Height including legs and castors 21"

It has a slightly damaged top brick which can be seen in the photos 2.5" long slit which can be seen in the photos and a small section of the element has popped out of the groove so could do with being clipped back in. It is advertised on other sites.

Collection is from Cheshire only as I do not have the means to pallet it Im
