Nexen N blue Eco tyre with only around 500 miles use. Lots of tread. Bought new and fitted spring 2016.

Due to head gasket failure in June the tyre has had very little use and must now be sold as vehicle is to be scraped.

Comes fitted to Renault 15in Alloy in very good condition. Suit Megane and other Renault models. Obviously makes best sense if you are also looking for a wheel of this type/design.

Collection preferred but can deliver at 30ppm (as measured by Google maps)
