3.5 acres of beautiful mixed woodland near Newcastle Emlyn, West Wales. With huge potential, easy access & a large secluded rough hardstanding type area with a wide track running up into the woods, making it highly desirable for a log cabin or two, caravans etc... Situated in a magical valley featured in The Book of Mabinogion ~ (the book of Welsh myths & legends) its full of bird song, wildlife & the sounds of the nearby river making it a wonderful escape from the modern world. There's Oak, hazel, silver birch, birch, willow, holly, beech, cherry, rowan, fir, foxgloves, lots of bilberry bushes & a vast array of colourful mosses & lichens.# It's been a wonderful hideaway for several years, I had 2 caravans there full time but a change in my situation means I need to let go of this now & pass it on to someone who can enjoy this special place as much as I have... For more info, viewings etc please call 0777 953 4221 0777 953 42...(click to reveal full phone number) Offers invited, thanx for looking :-)
