I have only just advertised these babies as they only had their jabs on Friday 27th jan and I wanted to check they were ok before being sold.

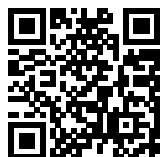

We have a litter of 4 adorable 3/4 pugs + 1/4 shitzu puppies that are ready for their new homes. mum is our 1/2 shitzhu, 1/2 pug and dad is a pedigree black pug. We have 3 boys and 1 girl. They are fully black apart from the girl that has a white stripe on her chest.

These pups are already partly toilet trained and weaned and they have had their first vaccination and health check and their microchip. Pups will leave with a bit of blanket from home, some food, their vaccination record , a form for the microchip details and a write up of info incl date of birth, order of birth, personal qualities and feeding times and amounts. They r brought up in my front room with my other dogs and my 6 children so they are used to household noises and being held. They play outside in the garden regularly and are already learning to toilet outside. The also use puppy pads inside. They are adorable pups that need special homes. Boys 700, girl 750. Only the smallest boy and biggest boy
