I brought this vehicle in August with no MOT requiring some welding. Unfortunately, with work commitments, I have been too busy to get work done and MOT'd. I have decided to sell this as project . Engine starts and runs OK and was driven to my home on trade plates by the garage personel that sold it to me. They took it in as a part exchange for a new van. The garage told me that car drove well but because of no MOT have not driven it myself. It has been sat on my driveway ever since. There are 21 service stamps in book. These cars are getting rare and very collectable. SOLD as a project with no MOT. Any questions or to arrange viewing, give me a call. ;
