Hi there I'm rehoming a German Shepherd puppy. He is 3 months. He knows a few commands such as sit, paw, lay, stay and come.

He has his
-DAPP (Distemper Parvo) vaccine
-Bordetella Vaccine
-Lepto Vaccine
-Lyme disease vaccine
-was dewormed with Pyrantel
-tested for hook and round worms
-given a Capstar pill to kill fleas
-given a trifexix pill to keep fleas, ticks, and mosquitoes away.

He is still too young to be neutered as his testicles have not descended from his.
