PROFX in Bangalore

PROFX, a specialist audio video and automation company, was founded in 2000 at Bangalore, India. It was one of the first AV brands in the country to focus on specific requirements of the audiophile community, introducing them to a world-class audio and video experience.

The company's philosophy, right from the start, has been to create experiences that are designed to delight the customer, and the mission is to always give the highest value for the product or solution, through personalized care and service. Customers understand the significance of the PRO FX experience, because it helps them to realise their own entertainment aspirations with little effort.
