This sale is for a multi functional Infant Cot-Bassinet/ Toddler Cot/Travel Cot/Play pen. I am a grandma and therefore it hasn't been used very often. We are a smokefree and pet free home.
The images show that the unit starts with a "bassinet", which is only to be used in the first weeks of life when baby still can't roll. In the images I have put an actual cot bed mattress to show how the bassinet sits at the top of the unit. It also demonstrates the good size of the cot. (This mattress is not part of the sale and was used purely as a visual aid). When used as the bassinet there is a changing 'table' area which fits to the bottom of the cot. Looking down into the cot you can see the mattress that comes with the base unit. This obviously also fits into the bassinet.
There is a mobile with the cot and worked when I put it on for the photographs, but I have a feeling it didn't always work.
This cot comes with its own travel bag, original instruction manual, and the original box.
The cot has been dismantled, is in the original box and ready for collection.
This item is for collection only, with payment on.
