Selling my 100w Mesa Dual Rectifier. It is the 3 channel 6L6 loaded head and comes with flight case and foot switch with cable. I have used is amp for about a year gigging but it is in perfect condition. Due to me switching amps the Mesa spends pretty much all of its time in its flight case. I am looking for £900 for the amp, the foot switch and the flight case or very nearest offer. Welcome to come and try out the amp but I will not post/ship due to costs and risk of being.
