57 Plate Citroen Grand Picasso - For Sale- Currently not running due to electrical fault. Was driving great until electrical issue. Great car being used daily until fault occurred and well maintained. New turbo fitted just over 10 months ago and engine in great shape. No issues with bodywork or internals which are clean. The only other issue with the car is the rear boot catch has separated and will need fixing but boot can be opened from the inside.

I will not be selling items separately from this vehicle,.
Not running although engine sound so buyer to collect in person.
