--	---	---	---	---	---	---	---	---	---

system slowing it down. These include - Temporary Internet Files, History, Cookies, Recently Typed URL's, Last Download Locations, Recent Documents, Thumbnail Cache, Run Menu, Empty Recycle Bin, Temporary Files, Clipboard, Memory Dumps, Check disk File Fragments, Windows Log Files, Windows Error Reporting, DNS Cache, Font Cache, Old prefetch data, User Assist History and IIS Log Files.

Next, your computer is checked for viruses, malware and malicious software that could slow down and damage your system. This includes software that may have well been downloaded legitimately but is well known to be problematic.

Next your anti-virus software is checked and tested for efficiency. Certain anti- virus software can seriously slow down your system (eg NORTON, McAfee) We recommend that you NEVER pay for anti-virus software. Free ones are just as good and some are much better than paid for ones. We highly recommend 'AVG FREE'

Next, certain Startup items are removed. This allows your computer to boot up faster.

Next, your Windows Registry is cleaned up and defragged.

Next, your Hard Drive is completely defragmented to allow the computer to use the Hard Drive more efficiently and free up space.

Next, your computer is benchmark tested and system checked. This will let us know if your computer would benefit from extra memory, a better processor etc to make your computer run faster.

Next, your computers internet speed settings are optimized to ensure you are receiving the full potential of your broadband service.

Next, your hardware drivers are updated.

Next we fix any security vulnerabilities you might have.

Next, your computer is exterior cleaned

(SPECIAL OFFER) All this for £25 all inc (Normally £)
