13 weeks toy poodle puppy is looking for a new family. He is ready to leave. He is pure Red Toy Poodles. Extremely clever dog and already very smart.

He has his pedigree certificate and he is KC registered and you will be able to re-register him to your name. The dad and the mum of the puppies are both PRCD PRA N/N clear. That means that the puppies will not develop the prcd-form of PRA.

The puppies are looking for the forever home and new loving families. They are ready to leave they mum and meet their new families now . £100 deposit required to secure the puppy for you if you choose one. Mum can bee seen with the puppies but the dad is a stud dog. Both mum and dad are Red Toy poodles. The mum is lighter colour 11" and the dad is 9".

Toy Poodles are very lively dogs. Full off energy and fun. They give alot of love to their families and are very friendly and clever dogs.

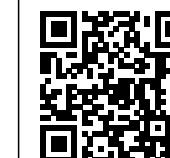

They do not shed and do not cause allergies.

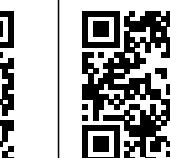

The puppies are dewormed, flea and lungworm treated. They had their first vaccination and are microchipped. Both boys have their male parts as it should be. ;-) Vet checked.

You will have to do the second vaccination in 2 weeks. They will also have free 4 weeks insurance once they leave to their new home.

I will include a starter pack - toy, blanket, their bed and the food for the start. That should give them a bit more comfort when they arrive to their new loving.
