With sadness I am selling my LC 350 powervalve. All original parts to go back to standard stock.

So it has the wheels, forks, brakes of a FZR 400

Engine is a F2 powervalve

MOT runs out in mid May

Sorned

Low milage Gison exhausts

Only did 300 miles and that was all done in april/may last year.

Done 1,819 miles since 2007 (have MOT certificate)

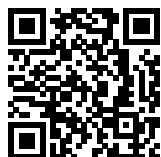

Body kit painted professionally about 5 years ago.

I am starting it at £1750 and will see where it takes me, thought I would put it on here first before.
