With sadness I am selling my LC 350 powervalue. All original parts to go back to standard stock.
So it has the wheels, forks, brakes of a FZR 400
Engine is a F2 powervalue
MOT runs out in mid May
Sorned
Low milage Gison exhausts
Only did 300 miles and that was all done in april/may last year.
Done 1,819 miles since 2007 (have MOT certificate)
Body kit painted professionally about 5 years ago.
I am starting it at £1750 and will see where it takes me, thought I would put it on here first before.
