Brazilian keratin blow dry treatment - Hair straightening

Keratin treatment is a temporary straightening process that transforms frizzy, unruly hair into straight, shiny, healthy hair for more than one month. Using a high-temperature flat iron, the keratin treatment is infused into hair, sealing the cuticle and repairing damage. Hair is stronger, smoother and more manageable. The main difference to the other treatments is that it's 100% safe and can be used even for bleached, damaged and weak hair.
 I'm using only the best professional keratin.

Prices:
 £30 short hair
 £40 medium hair (above shoulder)
 £50 long hair (below shoulder)

If you are interested in my service, please contact me through message or call me 07716982171 077169821...(click to reveal full phone number) . If I'm not answering your call, just text me.

Thank you
