Cpl little chips on winscreen. Driver seat wear n tear. Boot doesnt stay up (part on ebay 25 quid). Passenger electric window doesnt work. Drivers airbag light on. Was an oil leak at some point. Bulb for odometer gone. Needs a service. Missing the tiny bit on bumper that covers the bit where tow is screwed in. Will need 2 tyres for mot. Headlining and carpet all well looked after but headlining is loosening in places. That said it has been very well looked after over the years. New water pump. New exhaust, although was cheap so noisy. Bluetooth stereo. Sunroof and bodywork all in really good order. Alloys nice style and in good condition for age. Only 2 advisories on last mot one was for a tatty rear number plate...Can't remember the other...nothing major...will check. I think it won't start because I've activated the immobiliser and don't have the master key to deactivate it. I do want 150 for it as I think with a bit of tinkering a mechanic could get it back on the road lovely for not much money. Future classic. Would also be great for parts. Call 07342987802 073429878...(click to reveal full phone number) to view.
