Educational Consultancy I can help you to rapidly become a better student for £20.00. How does this work? 1. You fill in a detailed questionnaire about your studies. 2. You email this to me and I analyse it. 3. I send back a simple, easy-to-apply programme of recommendations designed to improve your study practice and enhance your performance as a student. It doesn't matter what subject! My product is YOU, more skilled in understanding what you are studying and able to spot how to 'tweak' what you do as a student so that you begin to enjoy studying more, understand its purpose for you, and gain better grades with teachers and examiners. Most students pick up these skills within about 5 hours. I can help you rapidly • overcome the initial barrier of that blank page staring at you • solve why you go 'blank' and want to give up • help you to overcome boredom and frustration while studying • upgrade the quality of your work in five simple stages • help you to spot where things begin to 'go wrong' and correct it easily. All from the comfort of your own home, without having to travel or even have someone visit you! Contact me to download the FREE questionnaire now (no obligation)! I am a very experienced classroom teacher and tutor of over 20 years. I gained a Bachelor of Arts Degree with Honours in English Literature from Flinders University in South Australia and was the head of a Sussex private school's English Department for 14 years (then Head Teacher of the whole school for over 6 years). I am DBS checked. Contact me NOW and experience a sigh of relief as the burden of studying begins to transform into something that you can understand and think!
