Here i have my cityrover style 1.4 2004.

MOT until July.

Low milage. 70.000

very economical.

Ideal runaround.

bad bits.

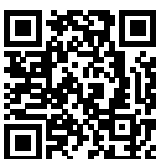

Needs a new clutch cable, new cable thrown in. THE CLUTCH PEDAL COMES UP A LONG WAY, ALL GEARS GO IN SMOOTHLY NO CRUNCHING OR GRINDING.

A couple of new tyres and passenger window needs adjusting, it slips and doesn't close without a bit of help.

All easy fixes for someone with a bit of knowledge.

No silly offers or tyre kickers please.
