

New LAKELAND STANDARD REMOSKA MINI COOKEROVEN - 2 Litre, 400w, Fully guaranteed

Location **Yorkshire and the Humber, North Humberside**
<https://www.freeadsz.co.uk/x-506425-z>

This is a genuine UK version of the Lakeland Standard Remoska which was obtained from the Beverley store recently (I also have the Grand version for sale - see separate advert).

- Power consumption: 400w (240v mains)
- Capacity: 2 litres
- Material: Tefal Classic Non-stick base pan coating
- Compact and very economical – uses hardly any electricity.
- Heats up quickly and has excellent heat conductivity.
- Cooks anything you can cook in an oven.
- Roast chicken, bake potatoes, cook pizzas, casseroles
- Bake bread, cakes etc.

In the Lakeland shop it costs £149.99 for this Grand model but I'm offering it for £120.00 which is a £30 saving for exactly the same one - it comes with the guarantee/receipt so there'll be no problems in the future if you have an issue with it due to their 'satisfaction guarantee'.

Details from the Lakeland website:

The Remoska has been a faithful friend to us over the years, but it was time for a facelift – no major changes, just little tweaks to make it even better than before, and it's still made and tested by skilled

workers in a small Czech factory. As well as a new, contemporary shape, the pan heats up more quickly than the old induction model, is fully sealed, has a stainless steel base and can be re-used for roasted meats, soups, casseroles, even whole chickens.

The new Remoska is powered by electricity, so you can use it with your oven, which is fully needed when switched on. Roast chicken pieces (crispy skin, flesh as soft as butter), succulent lamb chops with golden roasted potatoes, food in the hole and fish bakes, pasties and sandwiches, baked potatoes, pizzas from frozen, ready meals in their foil dishes; you can even bake light moist sponge cakes and delicious scones.

The pan is coated with Teflon Classic so it's easy to clean and being so compact it can be packed up and taken anywhere there's a 240V electricity.
