

CUSTOM BUILT STEREO SPEAKER SYSTEM - See Details (135 GBP)

Location **South West, Isle Of Wight**
<https://www.freeadsz.co.uk/x-508682-z>

I built this compact but powerful stereo speaker system for full range sound from solid bass to clear highs. It consists of a twin rear ported bass bin with 10" drivers, and a pair of e-audio long-excursion speaker pods connected through a crossover. The pods have integral tweeters, and there are also a pair of piezo horns in the housing to project the highs. The support pole is adjustable for height. Great sound with a power rating of approximately 200 watts per.
