Most UK businesses will be affected by Brexit. There are few details and few facts yet, let alone sector-specific briefings. While some trade associations may get up-to-speed their information will be shared with your competitors. Brexit-Expert is run by experts with decades' of practical experience taking effective action in the EU institutions for U.K. businesses and professional organisations. We have contacts with both senior officials and politicians in Brussels working on Brexit and similar contacts in the other 27 Member States. Obtain a confidential sample briefing by phoning 091-359-50006. The cost of the call pays for the briefing supplied within.
