

# Health amp Safety Barriers UK Exhibitions 2017 (21 GBP)

Location

West Midlands, West Midlands

<https://www.freeadsz.co.uk/x-508893-z>

We're excited to be exhibiting our health & safety products at the Birmingham NEC Health and safety event this year. We will be sharing our passion for health and safety with other industry experts. It will be a fantastic opportunity to promote our innovative products, giving us the chance to network with health & safety officers who are in charge of safety in their workplace. This event is organised by the British Safety Council specifically aimed at health and safety professionals and those responsible for health and safety in their business or organisation. The event attracts the exhibitors and partners from many large companies from across the UK and worldwide. The event is free to attend and is highly recommended for employers, consultants and professionals who are interested in health and safety. As it allows the chance to talk face to face to industry leading experts, and access to top speakers. At the Northern event in 2016 we picked up an award for best exhibit, with our products being extremely well received from attendees, other exhibitors and speakers who were leading experts and professionals in health and safety. After such a great time at the Northern event we are excited to be exhibiting in the midlands. Our exhibit will give visitors a good sense of our passion and dedication in what we do with our full product range alongside demonstrations and independent crash test videos. The range of products we will be bringing along with us include rack protectors, safety barriers and column protectors. By giving people the chance to physically see our products we hope to communicate our commitment to our customers. We're excited to showcase what we do and our unique health & safety products to the UK market. As with every product we design and manufacture the user is in mind, and therefore it's interesting to showcase our products to them directly. The BOPLAN® team are looking forward to meeting more of the users of our equipment, as well as those who aren't familiar with our products. If you're not already booked then visit the event's

registration page. With 6000 visitors, 200 exhibitors and 48 conference and seminar sessions, it really is one not to be missed. The Health and Safety Event is being held from the 13-15 March 2017 at the Birmingham NEC and BOPLAN will be exhibiting from 10-12 March. To ensure you don't miss out, please book your tickets now. Phone 01902 323232 or 01902 323232 to reserve your place.
