

Drone Aerial Inspections

Location **South East, Kent**
<https://www.freeadsz.co.uk/x-508900-z>

What was previously a difficult and expensive task can now be achieved much more cost-effectively using our UAV aerial systems. Building inspections of roofs, chimneys, towers, church spires, etc. No longer need for expensive cherry pickers or scaffolding. Operating to strict safety procedures, approved by the UK's CAA. Other services, aerial filming, aerial photography, agriculture, promotional footage, property marketing, events. We will give you a series of high resolution images and high definition.
