

Elegant Viprint Foil Business Cards and Invitations

Location

South East, Oxfordshire

<https://www.freeadsz.co.uk/x-509333-z>

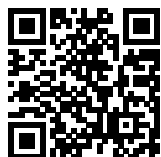

Foiling, also known as foil stamping, is an area which requires specialized skills. Viprint has extensive experience using this technique to design foil invitations, foil business cards, and foiled wedding invitations. Heated stamping dies are pressed against a thin leaf of foil to create various patterns with a rich metallic or pigment finish for foiled business cards and foil wedding invitation cards as well as other types of stationery. Viprint is a leader in quality bespoke printing operating from Buckingham. Know more information on <http://www.viprint.co/>.
